PERSONAL STATEMENT

I am a self-taught front-end developer from Poland. Since May 2021 my focus went entirely into programming. I have passion for coding, web development, 3d environments and UI.

I translate designs to front-end code, and easily work with cross-functional team to define and develop any product roadmaps.

As of today, I have no professional experience yet.

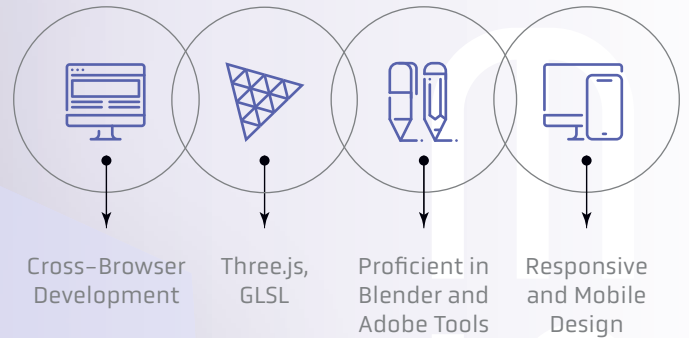

I am based in London, UK.

I can be reached anytime via mobile phone, Telegram or by email.
